Subject: proposed rate increase for Gold Canyon Sewer

As a homeowner in Gold Canyon, we are very angry and upset at the proposed rate increase of 101% for Gold Canyon Sewer Company. Having to pay \$70.34 each month to Gold Canyon Sewer company. We don't get an increase in our finances by 101% each month. We love living here but the taxes are higher and if they get the proposed increase a lot of residents might not be able to afford to live here. That type of rate increase would cost us an additional \$424.08 per year. I am not against a small rate increase but expecting homeowners to foot the bill for a 101% rate increase is totally unreasonable...

Thank you for your consideration a homeowner in Gold Canyon Karen Mlinarich Email address is [REDACTED]

Arizona Corporation Commission
Director of Utilities
To: The Arizona Corporation Commission
1200 Washington Street,
Phoenix, AZ

I am appalled that the Gold Canyon Sewer Company is applying for a 101% increase in their rates. Many of us living in this community are retired living on a fixed income. They sent us mailings that there would be no increase for their expansion. They had earlier stated that the grotesque odor perforating from their plant was at Bashas' located a short distance away. I can attest that this was not true because I sprayed for weeds inside the entire plant and the stench was beyond belief.

My wife and I ask that you deny their application on behalf of the retired citizens in Gold Canyon. If the waste, water, and electrical services follow the Gold Canyon Sewer Company's lead we will be forced to downsize our lifestyle and leave. We bought here because of the location. We do not want to be forced out by some money hungry company trying to dupe the public.

We greatly appreciate your support of our concern.
Sincerely,

Charles "Ed" and Socorro Segrave

Subject: Gold Canyon Sewer Rate Increase

Hi,

We talked a couple of days ago outside Gecko Coffee about the rate increase request by Gold Canyon Sewer. My wife and I are both opposed to the rate increase. Also, it makes no sense not to charge for new hook ups, especially for existing users.

This utility or its previous owner made at least two promises in writing to users and the ACC; a rate increase would not be necessary to pay for the expansion and there certainly would not be any request for at least five years after completion of the expansion. Now they are requesting a 101% increase, after going back on their word, just to quicken the payback or return on investment of investor/shareholders. They have a monopoly and only the ACC can protect this proposed rape of the users.
